Profile

Detail-oriented Business Analyst Intern and ICT undergraduate with a strong foundation in Requirements Engineering and the Software Development Life Cycle (SDLC). Passionate about bridging the gap between business stakeholders and technical teams to deliver effective digital solutions. Skilled in utilizing Power BI for KPI monitoring and SQL for independent data verification to support decision-making. Actively pursuing continuous learning in Artificial Intelligence with a focus on process improvement and strategic planning.

Technical Skills

- **Business Analysis:** Requirement Gathering, User Stories, Process Modeling, Test Planning (UAT), Stakeholder Management.
- **Data Validation & Reporting:** Microsoft Power BI (Dashboards & KPI Reports), Excel, SQL
- **Process & Methodologies:** SDLC Concepts, Agile/Scrum Awareness, Kanban Workflows.
- **Technical Understanding:** REST API Concepts, MERN Stack Fundamentals (React, Node.js), Database Structures (ER Diagrams).
- **Tools:** Trello , Git/GitHub , MS Office Suite.
- **UI/UX Design :** Figma, Adobe Creative Suite(Ps, Ai)
- **Soft Skills:** Critical Thinking, Strategic Planning, Business Communication (SLASSCOM Certified)

Projects

- **Financial P&L Statement Dashboard | Power BI, Advanced DAX** — **Dec 2025 – Jan 2026**
  - **Problem:** Standard Power BI visuals could not replicate the specific layout of corporate financial statements, leading to manual reporting.
  - **Solution:** Engineered a custom Profit & Loss (P&L) dashboard using advanced DAX calculations and row-level formatting.
  - **Tech Stack:** Microsoft Power BI, Advanced DAX, Excel.
  - **Outcome:** Standardised financial reporting, enabling stakeholders to track Gross Margin and YoY variance in real time.
- **Supply Chain & Inventory Optimization | Power BI, ABC Analysis** — **Feb 2026 – Present**
  - **Problem:** Inefficient inventory levels and lack of visibility into stock turnover led to capital lock-up in low-value items.
  - **Solution:** Developed a comprehensive logistics dashboard incorporating ABC Analysis logic to categorise inventory value.
  - **Tech Stack:** Microsoft Power BI, Data Modelling, ABC Analysis.
  - **Outcome:** Empowered management to prioritize high-value stock, optimising inventory turnover and reducing holding costs.
- **CalcX E-Commerce Platform (Calculators)** — **2025/12 - Present**
  - **Problem:** CalcX relied on manual sales processes for technical equipment and required a digital transformation to scale operations.
  - **Solution:** Delivered a custom e-commerce solution as the strategic "next step" for the business, designing the end-to-end customer Journey and cart logic.
  - **Tech Stack:** React.js (Frontend), Express.js, MongoDB.
  - **Outcome:** Successfully launched the digital sales channel, ensuring transaction accuracy and user retention through rigorous SQL data validation.architecture and modern web development.
- **University Sports Nutrition Platform** — **Aug 2025 – Nov 2025**
  - **Problem:** Sports students lacked a centralised tool to track daily calorie intake and align cafeteria meal choices with fitness goals.
  - **Solution:** Developed a web-based nutrition tracking application featuring an AI-driven logic engine for meal recommendations.
  - **Tech Stack:** React.js, Node.js, MongoDB, REST APIs.
  - **Outcome:** Successfully launched the digital sales channel, ensuring transaction accuracy and user retention through rigorous SQL data validation.architecture and modern web development.

Education

- Bachelor of Information and Communication Technology Honours degree.
  Uva Wellassa University of Sri Lanka (2023-Precent)

Leadership & volunteering experience

- **Leo Club of Uva Wellassa University Member, Board of Directors**
  -Joint Secretary (Leostic Year 2025/2026): Managed official records, correspondence, and meeting minutes to ensure effective administrative communication as a key board member.

  -Project Chairperson – Melodic Mind (2025/2026): Led a collaborative mental well-being project addressing academic stress through professional counselling and music therapy.
  -Editorial Crew Member (Leostic Year 2024/2025): Served on the board contributing to content strategy and maintaining the "*LEO TIMES*" newsletter.
- **IEEE Uva Wellassa University Student Branch Active Member & Committee Lead**
  -Executive Committee – ByteBash Version 2: Organised a monthly tech talk series facilitating knowledge sharing on emerging technologies to strengthen student technical skills.

  -Organizing Committee – Volunteer Training Session: Contributed to a leadership development initiative, preparing volunteers for effective community service through skill-building.

Certificate

- Microsoft Certified: Power BI Data Analyst Associate (PL-300) (In Progress)
- SLASSCOM Professional Skills Programme – Foundation Courses
  (Focus: Corporate Readiness, Business Communication, and Strategic Thinking.)
- MongoDB Associate Data Modeler *(In Progress)*
- Web Design for Beginners – University of Moratuwa (Open Learning) - May 2025
- Python for Beginners – University of Moratuwa (Open Learning) – April 2024
